## Profile

Computer Science graduate specializing in cybersecurity automation, SIEM integration, and AI-driven threat detection. Hands-on experience in incident response, vulnerability assessment, and phishing defense. Proven ability to design secure, scalable systems and develop AI-powered tools for threat detection.

## Skills

### Technical:

Python | Flutter & Dart | Firebase | SIEM (Splunk) | Linux & Windows Endpoint Scanning | Burpsuite | Threat Detection | Incident Response | Web Security | Kali Linux | Git/GitHub | Agile Methodologies

### Soft:

Analytical Thinking | Collaboration | Communication | Attention to Detail

## Experience

### IT Systems Manager - Seven's Company Ltd, Abuja | Jul 2023 – Present

- Manage IT infrastructure & ERP systems supporting leasing, sales, tenant & facility operations
- Oversaw vendor and user support operations, ensuring uninterrupted IT service delivery
- Implement cybersecurity & backup strategies ensuring compliance and data protection

### Cybersecurity Intern - BNS CyberLab Ltd, India (Remote) | Jul 2025 – Present

- Developed AI tools for deepfake detection, log analysis, and Windows/AWS threat monitoring with remediation guidance
- Built Python automation tool for email threat analysis, reducing manual workload
- Integrated pipelines with Splunk for real-time dashboards & alerts
- Conducted investigations using logs, artifacts, and network traces

### Cybersecurity Intern - JD Infotech, India (Remote) | Jun – Jul 2025

- Conducted vulnerability tests (SQLi, IDOR), recommending mitigations
- Automated phishing analysis & reporting with Python, linked to Splunk dashboards

### Software Developer - National Youth Service Corps (NYSC), Ministry Of Information, Akwa Ibom | Mar 2024 – Feb 2025

- Built an e-Library app (Flutter, Firebase) giving access to 1,000+ publications
- Modernized ministry documentation system with advanced search and real-time updates

### Software Developer Intern - Digital Academy, Enugu | Jan – Jul 2022

- Built Flutter apps with 95% test coverage, cutting bug reports by 30%

- Enhanced legacy systems & trained 15+ users for smooth adoption

## Education & Certifications

- **B.Sc. Computer Science** – University of Nigeria, Nsukka (2018–2023)  
Final Grade: 3.78/5.0 ( $\approx$ 3.02/4.0), Second Class Upper | EQF Level 6

## Certifications

- Cisco Junior Cybersecurity Analyst (2025)
- Aviatrix ACE Multicloud Network Associate (2025)
- Cisco Python Essentials 1 & 2 (2025)

## Projects

- [SentraSec](#) – Real-time security monitoring + cloud dashboard for local & AWS threats
- [DeepGuard AI](#) – Deepfake detection system for media authenticity
- [LogIQ](#) – AI-powered log analysis tool with natural-language queries
- [Phishing Detection App](#) – Real-time phishing detection integrated with Splunk
- Additional projects: AWS Security Alerting, Web Vulnerability Recon, E-Library, Toll Gate System

## Volunteering

Digital Onboarders CDS, Akwa Ibom (2024–2025)

- Trained youth in digital literacy, entrepreneurship, and leadership
- Created interactive training materials, boosting engagement by 30%

## Languages

- English — Fluent
- French — Beginner (A1)

## Memberships

- Contributor, Google Developer Group Nigeria (2019–Present)
